ENPARA BANK ANONİM ŞİRKETİ

PUBLICLY ANNOUNCED UNCONSOLIDATED INTERIM FINANCIAL STATEMENTS AND RELATED DISCLOSURES AT MARCH 31, 2026 TOGETHER WITH AUDITOR'S REVIEW REPORT

(Convenience Translation of Financial Statements and Related Disclosures And Footnotes Originally Issued in Turkish)

(Convenience Translation of the Auditor's Review Report Originally Issued in Turkish)

Independent Auditors' Review Report on Unconsolidated Interim Financial Information

To the Board of Directors of Enpara Bank Anonim Şirketi

Introduction

We have reviewed the unconsolidated statement of financial position of Enpara Bank A.Ş. ("the Bank") at March 31, 2026 and the related unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the three-months-period then ended. The Bank management is responsible for the preparation and fair presentation of these unconsolidated interim financial information in accordance with the Banking Regulation and Supervision Agency ("BRSA") Accounting and Financial Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated November 1, 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by the aforementioned regulations. Our responsibility is to express a conclusion on these unconsolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Basis of Qualified Conclusion

As stated in section 3, Part XXIV Explanations and Footnotes Related to the Unconsolidated Financial Statements, the free provision of thousand TRY 2,500,000 which was transferred from QNB Bank A.Ş. as part of the spin-off accounting on August 27, 2025 and does not meet the recognition criteria of TAS 37 "Provisions, Contingent Liabilities and Contingent Assets" was fully reversed and recognized as income in 2025. We express a qualified conclusion due to the effect of this matter on the "Profit/Loss" account presented in the unconsolidated financial position as of December 31, 2025, which is presented comparatively with the accompanying unconsolidated financial position as of March 31, 2026.

Qualified Conclusion

Based on our review, except for the effect of the matter referred in the basis of qualified conclusion paragraph on the unconsolidated financial statements, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true view of the financial position of the Bank at March 31, 2026 and of the results of its operations and its cash flows for the three-months-period then ended in all aspects in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report On Other Regulatory Requirements Arising From Legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Seven, are not consistent with the unconsolidated financial statements and disclosures in all material respects.

I.	Interim activity report including the evaluations of the chairman of the board of directors and the general manager regarding the interim activities	80-82

SECTION ONE

GENERAL INFORMATION

I. Explanatory Note on the Establishment Date, Nature of Activities and History of the Bank

Enpara Bank Anonim Şirketi ("Bank") has obtained its establishment permit with the decision numbered 10640, dated August 3, 2023, of the Banking Regulation and Supervision Agency ("BRSA"), published in the Official Gazette dated August 5, 2023, and numbered 32270, and has been established in Istanbul in accordance with the provisions of the Banking Law and the Turkish Commercial Code, published in the Turkish Trade Registry Gazette dated December 4, 2023, and numbered 10971. The Bank received an operating license pursuant to the Board decision numbered 10945, dated August 15, 2024, published in the Official Gazette dated August 23, 2024, and numbered 32641. It has started its operations on December 30, 2024, with the notification made to BRSA and accepted its first customer on February 13, 2025.

In order to transfer the Enpara.com banking services, operating under QNB Bank A.Ş., to the Bank through a partial spin-off, following the application made to the Banking Regulation and Supervision Agency, permission was granted on February 11, 2025, to proceed with the necessary procedures under the relevant legislation regarding the partial spin-off. At the General Assembly meeting held on March 18, 2025, the draft spin-off agreement was approved, and the Bank's Board of Directors was authorized to execute and sign the spin-off agreement. The submission of the partial spin-off transaction to the general assemblies of the relevant banks has been approved by the BRSA through its letter dated June 20, 2025, and numbered 157914, as well as by the Capital Markets Board of Türkiye ("CMB") through its approval dated July 17, 2025, and numbered 40/1243.

Within this scope, the transfer of Enpara.com banking services, operating under QNB Bank A.Ş., to the Bank through a partial spin-off in accordance with the Banking Law No. 5411, the "Regulation on the Merger, Transfer, Spin-off and Share Exchange of Banks" published in the Official Gazette dated November 1, 2006, and the II- 23.2 Communiqué on Mergers and Demergers, was approved at the Extraordinary General Assembly held on August 19, 2025. The related General Assembly resolutions were approved by the BRSA through its decision dated August 21, 2025, and numbered 11257, and this approval decision was published in the Official Gazette dated August 23, 2025, and numbered 32995. Following the publication of the BRSA's approval decision in the Official Gazette, the registration procedures were completed with the announcement of the Extraordinary General Assembly resolutions regarding the partial spin-off in the Turkish Trade Registry Gazette dated August 28, 2025.

The assets and liabilities pertaining to the Enpara.com business line as of August 27, 2025, and which were transferred to the Bank free of charge through the partial spin-off pursuant to the registered General Assembly resolutions, are explained in detail under Section XXIV. Explanations on Other Matters of this report.

The Bank is registered in Türkiye, and its registered address is as follows:
Esentepe Mah. Büyükdere Cad. No: 215 Şişli / İstanbul

GENERAL INFORMATION (Continued)

II. Information About the Bank's Shareholding Structure, Shareholders Who Individually or Jointly Have Power to Control the Management and Audit Directly or Indirectly, Changes Regarding These Subjects During the Year, If Any, And Information About the Controlling Group of The Bank

In accordance with the decision of the Banking Regulation and Supervision Agency, dated April 24, 2025, and numbered 11208, the transfer of 8,684,430,000 shares, representing 99.99% of the Bank's capital held by Digital-Q-FS Limited, to Qatar National Bank Q.P.S.C. has been completed.

Following the registration of the partial spin-off, the shareholding and capital structure of Enpara Bank were updated. As a result, the share capital of Enpara Bank was increased to full TRY 12,475,290,004 and 0.12% of its shares became publicly held.

374, 258,700.12 shares, representing 3% of the Bank's capital, were registered with the Central Registry Agency ("CRA") in a form eligible for trading on the stock exchange and began trading on the Pre-Market Trading Platform ("PMTP") under the ticker "ENPRA", using the single-price method as of April 7, 2026.

The Bank's paid in capital and ownership ratios as of March 31, 2026, are as follows:

Name Surname/Trade Name	Percentage of Shares (%)	Amounts of Shares (Full TRY)
Qatar National Bank Q.P.S.C.	99.88	12,459,992,866.72
QNB Faktoring A.Ş.	0.00	0.43

SECTION THREE

ACCOUNTING POLICIES

I. Basis of Presentation

1. Preparation of the financial statements and the accompanying footnotes in accordance with Turkish Accounting Standards and Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents

The Bank has prepared its financial statements in accordance with the "Regulation on the Principles and Procedures Regarding Banks' Accounting Practices and Document Storage." published in the Official Gazette dated November 1, 2006 and numbered 26333, and other regulations published by the Banking Regulation and Supervision Agency regarding the accounting and recording system of banks, circulars and explanations of BRSA, and the provisions of the Turkish Accounting Standard 34 ("TAS 34") – Interim Financial Reporting Standard and Turkish Financial Reporting Standards ("TFRS") put into effect by the Public Oversight Accounting and Auditing Standards Authority ("POA") for matters not regulated by these; "BRSA Accounting and Financial Reporting Legislation" and ''Communiqué on Financial Statements and Related Disclosures and Footnotes to be Publicly Announced by Banks'' published in the Official Gazette dated June 28, 2012 and numbered 28337, and ''Communiqué on Public Disclosures Related to Risk Management by Banks'' published in the Official Gazette dated October 23, 2015 and numbered 29511, and communiqués making additions and amendments to these communiqués. The Bank maintains its books of account in Turkish Lira in accordance with the Banking Law, Turkish Commercial Code and Turkish Tax Legislation.

Amounts included in the financial statements and related explanations and footnotes are expressed in Thousand Turkish Lira ("TRY") unless otherwise stated. Amounts expressed in foreign currencies are stated in full amounts.

2. Accounting policies and valuation principles used in preparation of financial statements

The accounting policies and valuation principles used in the preparation of the financial statements are determined and applied, in accordance with the regulations, communiqués, interpretations and legislations related to accounting and financial reporting principles published by the Banking Regulation and Supervision Agency. The accounting policies and valuation principles related with current period are explained in Notes II to XXIV below.

The financial statements are prepared according to the historical cost principle, except for the financial assets and liabilities shown at their fair values.

In the preparation of unconsolidated financial statements in accordance with TFRS, the Bank's management is required to make assumptions and estimates about the assets and liabilities in the balance sheet and the contingent issues as of the balance sheet date. These assumptions and estimates are regularly reviewed, necessary adjustments are made and the details of the effects of these adjustments are reflected in the profit or loss statement as explained in the relevant footnotes.

2.1. Changes in accounting policies and disclosures

None.

ACCOUNTING POLICIES (Continued)

I. Basis of Presentation (Continued)

2. Accounting policies and valuation principles used in the preparation of the financial statements (Continued)

2.2. Preparation of financial statements according to the current purchasing power of money

TAS 29 Financial Reporting in Hyperinflationary Economies ("TAS 29") requires entities whose functional currency is the currency of a hyperinflationary economy to report their financial statements in terms of the purchasing power of the currency at the end of the reporting period. In the Announcement on the Inflation Adjustment of Financial Statements of Companies Subject to Independent Audit made by POA on November 23, 2023, it was decided that companies applying TFRS will apply "TAS 29 Financial Reporting in Hyperinflationary Economies" standard in their financial statements as of the reporting period of December 31, 2023, and also institutions or organizations authorized to regulate and supervise in their respective fields were given the freedom to determine different transition dates for the implementation of TAS 29 provisions. In this context, BRSA;

- In accordance with the Board decision dated December 12, 2023, and numbered 10744, the financial statements of banks and financial leasing, factoring, financing, savings financing and asset management companies as of December 31, 2023, will not be subject to the inflation adjustment required under TAS 29.

- In accordance with the Board decision dated January 11, 2024, and numbered 10825, banks and financial leasing, factoring, financing, savings financing and asset management companies will apply inflation accounting as of January 1, 2025.

- In accordance with the Board decision dated December 5, 2024, and numbered 11021, banks and financial leasing, factoring, financing, savings financing and asset management companies will not apply inflation accounting in 2025.

- In accordance with the Board decision dated December 18, 2025, and numbered 11340, banks and financial leasing, factoring, financing, savings financing, and asset management companies will not apply inflation accounting in 2026.

Accordingly, TAS 29 has not been applied, and inflation adjustment has not been made in the financial statements dated March 31, 2026.

II. Strategy for the Use of Financial Instruments and the Foreign Currency Transactions

1. Strategy for the use of financial instruments

As of the reporting date, the majority of the Bank's funding structure consists of customer deposits and equity, and strategies related to financial instruments are shaped in line with this structure. Investments are primarily directed toward liquid instruments, and an adequate level of liquidity is maintained to ensure the timely fulfillment of obligations. The Bank creates a funding source for TRY denominated loans by converting foreign currency liquidity generated through customer deposits into TRY liquidity via swap transactions.

ACCOUNTING POLICIES (Continued)

II. Strategy for the Use of Financial Instruments and the Foreign Currency Transactions (Continued)

1. Strategy for the use of financial instruments (Continued)

Within the scope of risk management policies, the foreign exchange position is monitored within predetermined limits; if exchange rate risk arises from customer transactions, offsetting transactions are carried out to close the position. The Bank's liquidity structure is managed in a manner that enables the fulfillment of all maturing obligations.

Balance sheet and equity management are carried out by the Asset and Liability Committee ("ALM"), within the risk limits determined by the Board of Directors, taking into account market conditions to the extent possible, with the aim of keeping liquidity, exchange rate, and credit risks within specified limits and supporting sustainable profitability. These limits are reviewed on a regular basis and revised annually.

2. Foreign currency transactions

a) Foreign currency exchange rates used in converting transactions denominated in foreign currencies and presentation of them in the financial statements

The Bank accounts for the transactions denominated in foreign currencies in accordance with TAS 21 The Effects of Changes in Foreign Exchange Rates ("TAS 21"). Foreign exchange gains and losses arising from transactions that are completed as of March 31, 2026, are translated to TRY by using historical foreign currency exchange rates. Balances of the foreign currency denominated assets and liabilities except for non-monetary items are converted into TRY by using foreign currency exchange rates of the Bank for the period end and the resulting exchange differences are recorded as foreign exchange gains and losses.

b) Net profit or loss is included in the total foreign exchange differences for the period

The profit/loss of the Bank due to the foreign exchange position it carries and the foreign exchange transactions it carries out is included under the foreign exchange transaction profit/loss item in the profit or loss statement. The profit/loss gain/loss from spot foreign exchange transactions in the balance sheet is included under the foreign exchange gain/losses in the statement of profit or loss.

III. Explanations On Futures and Options Contracts and Derivative Instruments

The Bank's derivative transactions mainly consist of foreign currency and interest rate swaps as well as forward foreign exchange purchase and sale contracts.

Pursuant to "TFRS 9 Financial Instruments" ("TFRS 9"), derivative financial instruments of the Bank are classified as "Derivative Financial Assets at Fair Value Through Profit or Loss" or "Derivative Financial Assets at Fair Value Through Other Comprehensive Income".

The receivables and liabilities arising from derivative transactions are recorded in off-balance sheet through their contractual amounts. Derivative transactions are measured at fair value after initial recognition. Derivative financial instruments are initially recognized at fair value and attributable transaction costs are recognized in profit or loss on the date they are incurred. Subsequent to initial recognition, depending on whether the fair value is positive or negative, derivative financial instruments are presented under Derivative Financial Assets at Fair Value Through Profit or Loss or Derivative Financial Liabilities at Fair Value Through Profit or Loss in the balance sheet. Differences in fair value determined as a result of remeasurement are recognized under Income/Loss from Derivative Transactions in the statement of profit or loss.

Derivative financial instruments are booked under off-balance sheet items. Derivative financial instruments whose underlying asset is cash or commodities are recognized based on the amounts to be received or paid at maturity, while interest-based derivative financial instruments are recorded using the principal amount on which interest is calculated.

ACCOUNTING POLICIES (Continued)

IV. Explanations on Interest Income and Expenses

Interest income is recorded according to the effective interest rate method on an accrual basis. The Bank records the interest expenses on an accrual basis.

V. Explanations on Fees and Commission Income and Expenses

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with TFRS 15 Revenue from Contracts with Customers. Except for certain fees related with certain banking transactions and recognized when the related service is given, fees and commissions received or paid, and other fees and commissions paid to financial institutions are accounted under accrual basis of accounting throughout the service period.

VI. Explanations and Disclosures on Financial Instruments

Initial recognition of financial instruments

The Bank shall recognize a financial asset or a financial liability in its statement of financial position when, and only when, the entity becomes party to the contractual provisions of the instrument. A regular way purchase or sale of financial assets shall be recognized and derecognized, as applicable, using trade date accounting or settlement date accounting. Purchase and sale transactions of securities are accounted at the settlement date.

Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on the contractual conditions and the relevant business model. A financial asset or financial liability, excluding assets assessed under TFRS 15, is initially measured at its fair value when first recognized in the financial statements. In the initial measurement of financial assets and liabilities, excluding those for which fair value changes are reflected in profit or loss, transaction costs directly attributable to the acquisition or issuance are either added to or deducted from their fair value.

Classification of financial instruments

On which category a financial instrument shall be classified at initial recognition depends on both the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

As per TFRS 9 Financial Instruments Standard (“TFRS 9”), the Bank classifies a financial asset on the basis of its contractual cash flow characteristics if the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. In order to assess whether the element provides consideration for only the passage of time, an entity applies judgement and considers relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set. When the contractual conditions are exposed to the risks which are not consistent with the basic lending arrangement or variability of cash flows, the relevant financial asset is measured at fair value through profit or loss. The Bank tested all financial assets whether their “Contractual cash-flows solely represent payments of principal and interest” and assessed the asset classification within the business model.

ACCOUNTING POLICIES (Continued)

VI. Explanations and Disclosures on Financial Instruments (Continued)

Assessment of business model

As per TFRS 9, the Bank's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

The Bank's business models are divided into three categories.

Business model aimed to hold assets in order to collect contractual cash flows:

This is a model whose objective is to hold assets in order to collect contractual cash flows are managed to realize cash flows by collecting contractual payments over the life of the instrument. The financial assets that are held within the scope of this business model are measured at amortized cost when the contractual terms of the financial asset meet the condition of giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Receivables from the Central Bank, Banks, Money Market Placements, investments under financial assets measured at amortized cost, loans, leasing receivables, factoring receivables and other receivables are assessed within this business model.

Business model aimed to collect contractual cash flows and sell financial assets:

This is a model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Fair value change of the financial assets that are held within the scope of this business model are accounted under other comprehensive income when the contractual terms of the financial asset meet the condition of giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets measured at fair value through other comprehensive income are assessed in this business model.

Other business models:

Financial assets are measured at fair value through profit or loss in case they are not held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Financial assets measured at fair value through profit/loss and derivative financial assets are assessed in this business model.

Measurement categories of financial assets and liabilities

Financial assets are classified in three main categories as listed below in accordance with TFRS 9:

- Financial assets measured at fair value through profit/loss
- Financial assets measured at fair value through other comprehensive income
- Financial assets measured at amortized cost

ACCOUNTING POLICIES (Continued)

VI. Explanations and Disclosures on Financial Instruments (Continued)

Financial Assets at Fair Value Through Profit or Loss:

Financial assets at fair value through profit/loss are financial assets other than the ones that are managed with business model that aimed to hold to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and in case of the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and measured at their fair value after recognition. All gains and losses arising from these valuations are reflected in the statement of profit or loss.

In accordance with the Uniform Chart of Accounts ("UCoA") explanations, the positive difference between the acquisition cost and the discounted value of a financial asset is recorded under "Interest Income", if the fair value of the asset exceeds the discounted value, the positive difference is recorded in the "Capital Market Transactions Profits" account. Conversely, if the fair value is lower than the discounted value, the negative difference between the discounted value and the fair value is recorded in the "Capital Market Transactions Losses" account. In cases where such assets are sold before their maturities, the gains/losses on such sales are recorded under trading account income/losses.

As of March 31, 2026, the Bank does not have any financial assets at fair value through profit or loss.

Financial Assets at Fair Value Through Other Comprehensive Income

In addition to financial assets within a business model that aims to hold to collect contractual cash flows and aims to hold to sell, financial assets with contractual terms that lead to cash flows are solely payments of principal and interest at certain dates, they are classified as fair value through other comprehensive income. Financial assets at fair value through other comprehensive income are recognized by adding transaction costs to acquisition costs reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are measured at fair value. Interest income calculated with the effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to the statement of profit or loss.

Unrealized incomes and losses arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the statement of profit or loss and other comprehensive income of the period until the acquisition of the asset, sale of the asset, disposal of the asset, and impairment of the asset. These are accounted for under the "Other Accumulated Comprehensive Income or Expenses Reclassified to Profit or Loss" section under shareholders' equity. When the aforementioned securities are collected or disposed of, accumulated fair value differences, which were reflected under equity, are reflected in the statement of profit or loss and other comprehensive income. Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

ACCOUNTING POLICIES (Continued)

VI. Explanations and Disclosures on Financial Instruments (Continued)

Financial Assets Measured at Amortized Cost:

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost. Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at "amortized cost" by using "effective interest rate method". Interest income obtained from financial assets measured at amortized cost is accounted in statement of profit or loss and other comprehensive income.

VII. Explanations on Expected Credit Losses

The Bank recognizes a loss allowance for expected credit losses on financial assets and loans measured at amortized cost, financial assets measured at fair value through other comprehensive income, loan commitments, and financial guarantee contracts not measured at fair value through profit/loss, based on TFRS 9 and the regulation published in the Official Gazette No. 29750 dated June 22, 2016, in connection with "Procedures and Principles regarding Classification of Loans and Allowances Allocated for Such Loans." effective from January 1, 2018. At each reporting date, the Bank shall assess whether the credit risk on a financial instrument has increased significantly since initial recognition. The Bank considers the changes in the default risk of the financial instrument when making the assessment.

Stage 1:

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk is recorded in the amount of expected credit losses on the 12-month default risk. It is calculated 12-month expected credit loss based on a probability of default realized within 12 months after the reporting date. Such expected 12-month probability of default is applied on an expected exposure at default, multiplied with loss given default rate and discounted with the original effective interest rate. As of March 31, 2026, the expected credit loss calculations for receivables arising from public institutions and organizations are based on the Basel II minimum probability of default rate. This calculation is performed for each of the three scenarios described below.

Stage 2:

As of the reporting date of the financial asset, in the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is determined on the basis of the instrument's lifetime expected credit losses. The calculation method is similar to the one described in the above paragraph, but the probability of default and the loss rate in default are estimated throughout the life of the instrument.

Stage 3:

Financial assets considered as impaired at the reporting date are classified as Stage 3. The probability of default is taken into account as 100% in the calculation of impairment provision and the Bank accounts lifetime expected credit losses. In determining the impairment, the Bank takes into consideration the following criteria:

- Delay of over 90 days and impairment of creditworthiness
- Collateral and/or equity of debtor is inadequate cover the payment of receivables on the maturity
- In case the management believes that collection of receivables will be delayed by more than 90 days due to the macroeconomic, sector-specific or customer-specific reasons

ACCOUNTING POLICIES (Continued)

VII. Explanations on Expected Credit Losses (Continued)

Calculation of expected credit losses

The Bank measures expected credit losses with reasonable, objective, and supportable information based on a probability-weighted approach, including estimations about the time value of money, past events, current conditions, and future economic conditions as of the reporting date, without undue cost or effort. The calculation of expected credit losses consists of three main parameters: probability of default ("PD"), loss given default ("LGD"), and default amount ("TT"), The PD and LGD parameters used in the expected credit loss calculation are calculated instantaneously ("point in time" or "PIT") to include both current and expected cycle changes.

When estimating the expected credit loss, three scenarios (internal base, internal mild negative and internal severe negative) are considered. Each of these scenarios is associated with a different probability.

Probability of Default

The probability of default represents the likelihood of a borrower defaulting within a given time period. A 12-month PD represents the likelihood of default determined for the next 12 months and a lifetime PD represents the probability of default over the remaining lifetime of the instrument. Lifetime default rates are derived from 12-month PIT rate series. The modelling takes into account various factors such as segment information, systematic, and idiosyncratic data. Internal rating systems are used to assess the riskiness of both commercial and retail portfolios. The internal rating models used for the commercial portfolio incorporate both the client's financial information and qualitative survey responses. For the retail portfolio, the PD models include the client's and product's behavioral data at the bank, along with the client's demographic information. The probability of default is calculated by considering historical data, current conditions, and forward-looking macroeconomic expectations.

Loss Given Default

The loss given default represents the economic loss in the event of a default of the borrower. The loss given default is calculated by considering the time value of money based on the expected collections from credit cash flows. LGD calculations are performed by forming segments considering the key risk factors relevant to each portfolio based on historical data which best reflects current conditions and incorporating forward-looking information and macroeconomic expectations into the calculation. LGD summarizes all cash flows from the borrower following default. It covers all costs and collections incurred throughout the collection cycle, including collections from collateral. It also includes the "time value of money" which is calculated by deducting costs and additional losses from the present value of the collections.

Default Amount

The default amount represents the expected economic receivable at the time of default. The expected default amount is calculated by discounting the expected principal and interest repayments, as well as accruals, using the effective interest method. The calculation of the default amount utilizes credit conversion rates based on historical performance and reflecting the relevant portfolio. When estimating the expected credit loss, three scenarios (internal base, internal mild negative and internal severe negative) are considered. Each of these scenarios is associated with a different probability.

ACCOUNTING POLICIES (Continued)

VII. Explanations on Expected Credit Losses (Continued)

Consideration of Macroeconomic Factors

Loss given default and probability of default parameters are determined by considering macroeconomic factors. The macroeconomic variables used in the calculation of expected credit loss are as follows:

- 5-year credit risk of Türkiye ("CDS spread")
- Real Gross Domestic Product ("GDP") growth
- Unemployment rate
- Inflation rate
- 5-year Türkiye government bond yield

The stages were determined through the models created using internal information for the Bank. The Bank updates the macroeconomic variables used in the expected credit loss calculation twice a year and applies them to its models. In addition, the Bank reassessed and updated the macroeconomic scenario weights used in expected credit loss calculations as of March 31, 2026.

Calculation of Expected Loss Period

Lifetime ECL is determined by taking into account the period during which the Bank will be exposed to credit risk, maturity extensions and repayment options. Behavioral maturity analysis has been conducted for credit cards, revolving loans, and overdraft accounts. Apart from credit cards and other revolving loans, the maximum period for recognizing credit losses is the contractual life of the financial instrument, unless there is a legal right to call the loan back.

Significant increase in Credit Risk

The Bank performs both quantitative and qualitative assessments to determine the financial assets that will be classified under Stage 2 ("Significant Increase in Credit Risk") due to a significant increase in credit risk.

As part of the quantitative assessment, the relative change between the probability of default measured at the origination date and the PD measured at the reporting date is compared. If there is a significant deterioration in the PD value, it is considered that there has been a significant increase in credit risk, and the financial asset is classified under Stage 2. In this context, the Bank has calculated threshold values to determine the extent of the relative change that constitutes a significant deterioration. In the quantitative assessment of a significant increase in credit risk, the Bank considers the absolute thresholds as well as the relative thresholds as an additional layer. Receivables that are above the absolute threshold for the probability of default are classified under Stage 2, regardless of the relative change.

As part of the qualitative assessment, a financial asset is classified under Stage 2 if any of the following conditions occur.

- Receivables that overdue more than 30 days as of the reporting date
- Receivables that are being closely monitored by the Bank
- Receivables that are evaluated within the scope of restructuring due to payment difficulties

ACCOUNTING POLICIES (Continued)

VII. Explanations on Expected Credit Losses (Continued)

Write-off Policy

Receivables that are classified as non-performing loans are collected primarily within the framework of administrative contacts with the debtors. If no results are obtained, they are pursued through legal means. In case the write-off of uncollectible receivables becomes necessary, one of the methods of destruction, sale of receivables, or write-off can be applied.

In accordance with the provisions of the "Regulation on the Amendment of the Regulation on the Classification of Loans and the Procedures and Principles Regarding the Classification of Loans and Provisions for These" published in the Official Gazette dated July 2021 and numbered 31533, they are classified under the "Fifth Group - Loans with Losses" and are expected to be written off due to the default of the debtor. The portion of the loans for which there is no reasonable expectation of recovery of the loan loss provision is deducted from the records within the period determined specifically for the situation of the borrower within the scope of TFRS 9, starting from the first reporting period (interim or year-end reporting period) following their classification in this group. In this context, deducting the loans that cannot be collected from the records is an accounting practice and does not result in the waiver of the right to the receivable.

VIII. Explanations on Netting of Financial Instruments

Financial assets and liabilities are presented on a net basis in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

IX. Explanations on Sales and Repurchase Agreements and Lending of Securities

Securities sold under repurchase agreements (“Repo”) are classified as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, or financial assets measured at amortized cost, in line with the classification of financial instruments. The funds obtained in return for repo transactions are recorded under Funds Provided under Repurchase Agreements. Interest income derived from securities subject to repurchase agreements is recognized under Interest Income on Securities Portfolio, whereas the expenses paid within the framework of repo agreements are recognized under Interest Expense on Money Market Transactions.

Securities purchased with repurchase agreements (“Reverse repo”) are classified under Receivables from Reverse Repurchase Agreements in the balance sheet. Interest income earned from reverse repo transactions is recognized under Interest Income on Money Market Transactions.

Securities lending transactions are classified under “Money Market Funds” and accruals are calculated for the interest expense occurred.

X. Explanations on Assets Held for Sale and Discontinued Operations

None (December 31, 2025 – None).

ACCOUNTING POLICIES (Continued)

XI. Explanations on Goodwill and Other Intangible Assets

The Bank's intangible assets consist of software and intangible rights.

The intangible assets are recorded at their historical cost less accumulated amortization and provision for impairment, if any, amortization is calculated on a straight-line basis.

Software programs have been classified as other intangible fixed assets. The useful life of software programs is determined as 3-5 years.

If there is objective evidence of impairment, the asset's recoverable amount is estimated in accordance with the TAS 36 Standard on Impairment of Assets ("TAS 36") and if the recoverable amount is less than the carrying value of the related asset, a provision for impairment loss is made. There is no goodwill in the attached unconsolidated financial statements since there is no associates, entities under common controls and subsidiaries in financial statements.

XII. Explanations on Tangible Assets

Initial records of tangible fixed assets are made based on their cost, which is calculated by adding the acquisition amount and other direct expenses necessary to make the asset usable. Tangible assets are valued at their remaining amounts after deducting accumulated depreciation and accumulated value decreases, if any, from their cost in the period following their recording.

Depreciation for tangible fixed assets is separated by taking into account the estimated useful lives of the assets using the straight-line method.

In accordance with the "Communiqué on Amendment to the Communiqué on Uniform Chart of Accounts and Prospectus" dated January 10, 2011, depreciation of leasehold improvements is calculated based on the lease term not exceeding 5 years if the lease term is certain or based on 5 years if the lease term is not certain.

As of the balance sheet date, with respect to assets which are monitored under tangible assets for less than one year, the projected depreciation amount for a full year, is allocated in proportion to the tangible asset's period of stay in the assets.

The profit or loss arising from the disposal of tangible fixed assets is reflected in the profit or loss statement as the difference between the net disposal proceeds and the net book value of the tangible fixed asset.

Expenses for repairs are capitalized if the expenditure increases economic life of the asset; otherwise, they are expensed.

There are no changes in the accounting estimates in regard to amortization duration that could have a significant impact on the current and future financial statements. There are no pledges, mortgages or other restrictions on the tangible assets. There are no purchase commitments related to the fixed assets.

ACCOUNTING POLICIES (Continued)

XIII. Explanations on Leasing Transactions

With the introduction of TFRS 16 Leases Standard ("TFRS 16"), the distinction between operating leases and finance leases has been eliminated. Fixed assets acquired through leasing are recorded as "Tangible Fixed Assets" on the asset side and "Finance Lease Liabilities" on the liability side of the Bank's balance sheet at the commencement of the lease. At the start of the lease, the Bank calculates the right-of-use asset by taking the present value of the lease payments and presents it under "Tangible Fixed Assets." On the liability side, the Bank records the unpaid lease payments as "Finance Lease Liabilities." measured at their present value as of the relevant date. Lease payments are discounted using the borrowing interest rate. Direct costs incurred for the lease are added to the cost of the assets acquired through financial leasing and capitalized. Lease payments include both the financing costs arising from the lease and the portion of the leased asset's value attributable to that period.

TFRS 16 Leases

The TFRS 16 Standard eliminates the dual accounting model, which is the current practice for lessees, whereby financial leases are shown on the balance sheet and operational leases are shown off the balance sheet. Instead, a single balance sheet-based accounting model similar to the current financial lease accounting is introduced. For lessors, accounting continues to be substantially similar to current practices.

Set out below are the accounting policies of the Bank upon application of TFRS 16:

Right of Use Assets

The Bank recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The right use includes the presence of:

- The initial measurement of the lease,
- The amount obtained by deducting all lease incentives received from all lease payments made on or before the date the lease actually begins and,
- All initial direct costs incurred by the Bank.

At the end of the lease term of the underlying asset's service, the transfer of the Bank is reasonably finalized, and the Bank depreciates the asset until the end of the life of the underlying asset on which the lease actually began. Right-of-use assets are subject to impairment.

Lease Liabilities

The Bank measures the lease obligation at the present value of the unpaid lease payments on the date that the lease commences.

Lease payments included in the measurement of the lease obligation on the date that the lease actually commences, consists of the following payments to be made for the right of use of the underlying asset during the lease period and not paid on the date the lease actually starts:

- The amount obtained by deducting any lease incentives receivable from fixed lease payments,
- Lease payments that are based on an index or rate, where the initial measurement is made using an index or rate at the commencement date of the lease,
- Fines for termination of the lease if the lease term indicates that the Bank will use an option to terminate the lease.

ACCOUNTING POLICIES (Continued)

XIII. Explanations on Leasing Transactions (Continued)

Variable lease payments that do not depend on an index or rate are recognized as an expense in the period in which the event or condition that triggered the payment occurred. The Bank revises the revised discount rate for the remainder of the lease term, if the implicit interest rate in the lease can be easily determined; the Bank's alternative borrowing interest rate at the date of the revaluation.

After the effective date of the lease, the Bank measures the lease obligation as follows:

- Increases the carrying amount to reflect the interest on the lease obligation and
- Decreases the carrying amount to reflect the lease payments made,
- Remeasures the carrying amount to reflect any revaluations or restructurings, if applicable. The remeasurement of the lease liability is recognized as an adjustment to the right of use asset in the financial statements.

Short-term leases and leases of low-value assets

The Bank applies the short-term lease recognition exemption to lease agreements with a lease term of 12 months or less, as well as to leases of information technology equipment classified by the Bank as low-value assets. Lease agreements for short-term leases and low-value assets are recognized as expenses on a straight-line basis over the lease term.

Extension and early termination options

The leasing obligation is determined by taking into account the extension and early termination options in the contracts. The majority of the extension and early termination options in the contracts consist of options that can be applied jointly by the Bank and the lessor. However, if the extension and early termination options in question are at the discretion of the Bank according to the contract, and the exercise of the options is reasonably certain, the lease term is determined by taking this into account. If there is a significant change in the conditions, the evaluation made is reviewed by the Bank.

XIV. Explanations on Provisions and Contingent Liabilities

Provisions, other than expected credit loss for loans and other receivables, and contingent liabilities are provided for in accordance with TAS 37 Provisions. Contingent Liabilities and Contingent Assets ("TAS 37"). Provisions are accounted for immediately when obligations arise as a result of past events and a reliable estimate of the obligation is made by the Bank. Whenever the amount of such obligations cannot be measured, they are regarded as "contingent". In the financial statements, a provision is made for an existing commitment resulted from past events if it is probable that the commitment will be settled, and a reliable estimate can be made of the amount obligation. If these criteria are not met, the Bank discloses these issues in the explanations and notes related to the financial statements. In cases where reliable estimate cannot be made of the amount of the obligation, it is considered contingent liabilities. For contingent liabilities if the probability that the event will occur is greater than the probability that it will not and the amount of the obligation can be measured reliably, a provision is made.

ACCOUNTING POLICIES (Continued)

XV. Explanations on Obligations of the Bank Concerning Employee Benefits

Provision for employee severance benefits has been accounted for in accordance with TAS 19 Employee Benefits ("TAS 19").

In accordance with the existing social legislation in Türkiye, the Bank is required to pay the retirement pay which is calculated for every working year within the Bank over salary for 30 days or the official ceiling amount per year of employment, and the notice pay which is calculated for the relevant notice period time as determined based on the number of years worked for the Bank to each employee whose employment is terminated due to resignation or for reasons other than misconduct.

The Bank has reflected the retirement pay liability amount, which was calculated by an independent actuary, in the accompanying financial statements. According to TAS 19, the Bank recognizes all actuarial incomes and losses immediately through other comprehensive income.

Provision for the employees' unused vacations has been booked in accordance with TAS 19 and reflected to the financial statements.

There are no foundations, pension funds or similar associations of which the employees are members.

XVI. Explanations on Taxation

1. Corporate tax

According to the Corporate Tax Law No. 5520, published in the Official Gazette No. 26205 dated June 21, 2006, it is stated that: "While corporate tax is calculated at a rate of 20% on corporate profits, corporate tax is collected at a rate of 25% on the corporate earnings of banks, companies within the scope of Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies, and pension companies."

Law No. 7456, which entered into force after being published in the Official Gazette No. 32249 dated July 15, 2023, on the issue of additional motor vehicle tax to compensate for the economic losses caused by the earthquakes that occurred on February 6, 2023, and in the 21st article of amending certain laws and the Decree Law No. 375, within the first paragraph of the 32nd article of Law No. 5520, the phrase "20%" has been changed to "25%" and the phrase "25%" to "30%". This change is valid to be applied to the earnings earned in 2023 and subsequent taxation periods, starting from the returns that must be submitted as of October 1, 2023. Prepaid taxes are tracked in the "Current Tax Liability" or "Current Tax Asset" accounts to be offset with the corporate tax liability of the relevant year.

Banks calculate provisional tax at the rate of 30% on their quarterly financial profits to be applied to their profits earned in 2024 and subsequent taxation periods, starting from the declarations that must be submitted as of October 1, 2023, for the 2023 taxation periods. They declare and pay it until the 17th day of the second month following that period. With the 9th article of Law No 7338 on the Amendment of the Tax Procedure Law and Some Laws published in the Official Gazette dated October 26, 2021, and numbered 31640, the repetitive article 120 of the Income Tax Law No. 193 was amended, and it has been stated that provisional tax will be calculated and paid on the quarterly earnings determined for the first nine months of the relevant accounting period, which is applied from the declarations submitted. With Article 2 of Law No. 7566 on the Amendments to Tax Laws and Certain Laws and Decree Laws, published in the Official Gazette dated December 19, 2025 and numbered 33112, the provisional Article 120 of the Income Tax Law No. 193 has been amended again, and it has been stated that provisional tax will be calculated, declared, and paid based on the quarterly profits of the relevant accounting period, to be applied to the declarations to be submitted for the 2025 taxation period. The temporary tax paid during the year belongs to that year and is deducted from the corporate tax to be calculated on the corporate tax return to be submitted in the following year. If the amount of temporary tax paid remains despite the deduction, this amount can be refunded in cash or deducted.

ACCOUNTING POLICIES (Continued)

XVI. Explanations on Taxation (Continued)

1. Corporate tax (Continued)

According to the Corporate Tax Law, financial losses shown on the declaration can be deducted from the corporate tax base of the period if they do not exceed 5 years. According to the Tax Procedure Law, declarations and related accounting records can be examined by the tax office within five years. On the other hand, if the provision of a document subject to stamp duty, whose tax and penalty is time-barred, is utilized after the expiry of the statute of limitations, the tax receivable of the aforementioned document arises.

The corporate tax provisions calculated over the profit for the period are recorded in the "Current Tax Provision" account in the profit or loss statement, and the current tax effects of the transactions that are directly accounted for in equity are reflected in the shareholders' equity.

In cases where the profit for the period is not distributed or added to the capital, it is not subject to withholding tax.

The financial statements should be subject to inflation if both of the following conditions are met within the framework of the Tax Procedure Law's reiterated article 298/A:

- The increase in the price index (D-PPI- Domestic Producer Price Index) exceeded 100% in the last three accounting periods, including the current period, and
- To be more than 10% in the current accounting period

The law on the amendment of the Tax Procedure Law and the Corporate Tax Law was enacted on January 20, 2022, with the Law No. 7352, and the conditions regarding the inflation adjustment within the scope of the repeated article 298 are determined in the 2021 and 2022 accounting periods and the 2023 accounting period temporary tax periods, including the temporary accounting periods. It has been decided that the financial statements will not be subject to inflation adjustment, regardless of whether the financial statements have been made. Additionally, pursuant to the Tax Procedure Law General Communiqué No. 582, it has been announced that taxpayers within the scope will not apply inflation adjustment for the first, second, and third provisional tax periods of the 2025 fiscal year.

With the General Communiqué No. 587 of the Tax Procedure Law, published in the Official Gazette dated December 24, 2025, and numbered 33117, it has been deemed appropriate that taxpayers within the scope of this communiqué should not make inflation adjustments in the fourth provisional tax period of the 2025 accounting period.

Furthermore, with Article 34 of Law No. 7571, published in the Official Gazette dated December 25, 2025 and numbered 33118, temporary Article 37 was added to the Tax Procedure Law No. 213, stating that financial statements will not be subject to inflation adjustment in the 2026 and 2027 fiscal years, as well as the 2025 fiscal year and provisional tax periods, regardless of whether the conditions for inflation adjustment under repetitive Article 298 are met. For the purposes of the application of paragraph (Ç) of repetitive Article 298, periods in which inflation adjustment is not applied will be considered as periods in which the conditions for inflation adjustment have not been met.

2. Deferred taxes

The Bank calculates deferred tax in accordance with the provisions of the Turkish Accounting Standard on Income Taxes ("TAS 12") for taxable temporary differences arising between the book value of an asset or liability and its taxable value determined in accordance with tax legislation and reflects these in its records. In the Bank's deferred tax calculation, the enacted tax rates valid in accordance with the current tax legislation are used for the relevant items in accordance with the period in which the tax will occur.

ACCOUNTING POLICIES (Continued)

XVI. Explanations on Taxation (Continued)

2. Deferred taxes (Continued)

The Corporate Tax rate for banks, companies within the scope of Law No. 6361, electronic payment and money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and retirement companies will be applied as 30% starting from the declarations to be submitted as of October 1, 2023, and will also be applied to the profits obtained in 2023 and the following taxation periods. As of March 31, 2026, a deferred tax calculation was made according to the rate of 30% for assets and liabilities.

While deferred tax liabilities are calculated for all taxable temporary differences, deferred tax assets consisting of deductible temporary differences are calculated on the condition that it is highly probable to benefit from these differences by generating taxable profit in the future.

The Bank records deferred tax for Stage 1 and Stage 2 expected loss provisions. Deferred tax effects related to transactions whose profit/loss effect is directly recognized in equity are also reflected in equity.

3. Local and global minimum supplementary corporate tax

In September 2023, POA issued amendments to TAS 12 that introduce a mandatory exception to the recognition and disclosure of deferred tax assets and liabilities related to Second Pillar income taxes. The amendments clarify that TAS 12 applies to income taxes arising from tax laws that have been enacted, or are substantively enacted, for the purpose of applying the Second Pillar Model Rules issued by the Organization for Economic Cooperation and Development ("OECD"). These amendments also introduce certain disclosure requirements for entities affected by such tax laws. The exemption from recognizing and disclosing information about deferred taxes and the disclosure requirement for when the exemption has been applied are effective upon issuance of the amendments.

Pillar 2 regulations agreed upon by OECD member countries entered into force in Türkiye with the Law No. 7524 on Amendments to Tax Laws. Certain Laws and Decree Law No. 375 published in the Official Gazette dated August 2, 2024.

The General Communiqué on the Application of Local and Global Minimum Supplementary Corporate Tax was published in the Official Gazette dated December 26, 2025, and numbered 33119. Based on preliminary assessments made in consideration of the relevant regulations, it is evaluated that the aforementioned regulations will not have any impact on the financials. The relevant regulations do not have any impact on the financials of the Bank, and changes in legislation are monitored.

4. Transfer pricing

The article No. 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of "disguised profit distribution" by way of transfer pricing, "The General Communique on Disguised Profit Distribution by way of Transfer Pricing" published on November 18, 2007, explains the application-related issues in detail. According to this Communique, if the taxpayers conduct transactions like the purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes. The disguised profit distribution amount will be recognized as share in net profit, and stoppage tax will be calculated depending on whether the profit-distributing institution is a real or corporate entity, full-fledged or foreign-based taxpayer, and is subject to or exempt from tax.

ACCOUNTING POLICIES (Continued)

XVI. Explanations on Taxation (Continued)

4. Transfer pricing (continued)

As discussed under the subject Communique's 7.5 - Annual Documentation section, taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities, and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns, and submit them to the tax offices.

XVII. Additional Explanations on Borrowings

The Bank generates funds from domestically and internationally resident people and institutions by using debt instruments such as syndication, securitization, collateralized debt and bond issuance, when necessary. A forementioned transactions are initially recorded at transaction cost plus acquisition cost, reflective of their fair value, and are subsequently measured at amortized cost by using effective interest rate method. As of March 31, 2026, the Bank's liabilities do not include any debt instruments obtained from individuals and institutions resident in the country or abroad.

XVIII. Explanations on Share Issues

There are no shares issued in 2026 (December 31, 2025 – None).

XIX. Explanations on Confirmed Bills of Exchange and Acceptances

None (December 31, 2025 – None).

XX. Explanations on Government Incentives

As of March 31, 2026, the Bank does not have any government incentives or supports (December 31, 2025 – None).

XXI. Explanations on Segment Reporting

The Bank primarily operates in Retail, Corporate, and SME Banking segments. The Bank provides debit and credit card, loan and online banking services to its customers. Within the scope of treasury operations, foreign currency purchase/sale transactions are conducted.

Current Period	Retail Banking	Corporate and Commercial Banking	Treasury and Head Office	Total Operations of the Bank

(*) Represents the balances as of December 31, 2025.

ACCOUNTING POLICIES (Continued)

XXII. Explanations on Profit Reserves and Profit Distribution

At the Bank's Ordinary General Assembly meeting held on March 25, 2026, it was decided not to distribute dividends. From the Bank's profit after taxes for 2025, TRY 282,796 was allocated to general legal reserves and TRY 5,373,141 to extraordinary reserves. In addition, the remaining balance of TRY 481,935 from prior years' profits was also transferred to the extraordinary reserves account.

XXIII. Explanations on Earnings Per Share

Earnings per share listed on the statement of profit or loss and other comprehensive income is calculated by dividing net profit to weighted average amount of shares issued within respective year.

	Current Period	Prior Period
Net Profit for the Period	1,921,100	369,774
Weighted Average Amount of Shares Issued (Thousand)	12,475,290	8,684,430
Earnings Per Share	**0.1540**	**0.0426**

In Türkiye, companies can increase capital through "bonus share" distributed from previous year earnings to current shareholders. Such "bonus share" distributions are accounted as issued shares while calculating earnings per share. Accordingly, weighted average amount of shares issued used in these calculations is found through taking into consideration retroactive effects of subject share distributions. In case, amount of shares issued increases after the balance sheet date but before the date of financial statement preparation due to distribution of "bonus share", earnings per share is calculated taking into consideration the new amount of shares.

As of March 31, 2026, there is no bonus shares issued (December 31, 2025 – None).

XXIV. Explanations on Other Matters

Following the application to the Banking Regulation and Supervision Agency for transfer of Enpara.com banking services, operating under QNB Bank A.Ş., to the Bank through a partial spin-off, permission was granted by BRSA on February 11, 2025, to proceed with the necessary procedures in accordance with the relevant legislation on partial spin-off. Following the approval of the partial spin-off agreement at the General Assembly meeting held on March 18, 2025, the Bank's Board of Directors was authorized to execute and sign the spin-off agreement.

The submission of the partial spin-off transaction to the general assemblies of the relevant banks was approved by the BRSA through its letter dated June 20, 2025, and numbered 157914. Within this scope, the transfer of Enpara.com banking services, operating under QNB Bank A.Ş., to the Bank through a partial spin-off in accordance with the Banking Law No. 5411, the "Regulation on the Merger, Transfer, Demerger and Share Exchange of Banks" published in the Official Gazette dated November 1, 2006, and the II-23.2 Communiqué on Merger and Demerger, was approved at the Extraordinary General Assembly held on August 19, 2025. The related General Assembly resolutions were approved by the BRSA through its decision dated August 21, 2025, and numbered 11257, and this approval decision was published in the Official Gazette dated August 23, 2025, and numbered 32995. Following the publication of the BRSA's approval decision in the Official Gazette, the registration procedures were completed with the announcement of the Extraordinary General Assembly resolutions regarding the partial spin-off in the Turkish Trade Registry Gazette dated August 28, 2025.

ACCOUNTING POLICIES (Continued)

XXIV. Explanations on Other Matters (Continued)

As of August 27, 2025, the assets and liabilities pertaining to the Enpara.com business line, which were transferred to the Bank free of charge through the partial spin-off as of the registration date of the General Assembly resolutions, are as follows:

Assets	**August 27, 2025**
Cash and Cash Equivalents (*)	40,640,408
Financial Assets at Fair Value Through Other Comprehensive Income	11,901,691
Loans	139,756,262
Other Financial Assets Measured at Amortized Cost	7,871,291
Expected Credit Loss (-)	8,200,914
Tangible Assets (Net)	113,987
Intangible Assets (Net)	581,593
Other Assets (Net)	1,970,236
Total Assets	**194,634,554**

Liabilities	**August 27, 2025**
Deposits	189,551,907
Lease Payables (Net)	38,791
Reserve for Employee Benefits	217,215
Other Provisions (**)	2,720,186
Other Liabilities	2,428,278
Other Comprehensive Income/Expense Items Reclassified to Profit or Loss	(321,823)
Total Liabilities	**194,634,554**

(*) Includes an expected loss provisions balance of TRY 5,145.
(**) Includes free provision balance of TRY 2,500,000.

The transferred portion represents 12% of QNB Bank A.Ş.'s unconsolidated loans, 18% of its deposits, and 10% of its total assets and liabilities. Since the spin-off transaction was carried out between entities under common control, the related assets and liabilities were transferred at their carrying amounts in QNB Bank's unconsolidated financial statements as of August 27, 2025, and no profit or loss was recognized as a result of the transaction.

SECTION FOUR

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK

I. Explanations on Equity

Total capital and Capital adequacy ratio have been calculated in accordance with the "Regulation on Equity of Banks" and "Regulation on Measurement and Assessment of Capital Adequacy of Banks". As of March 31, 2026, Bank's total capital has been calculated as TRY 21,114,772 (December 31, 2025 – TRY 19,546,672) and the capital adequacy standard ratio is 15.45% (December 31, 2025 – 16.83%).

Pursuant to the BRSA Decision dated November 13, 2025 and numbered 11286, as of January 1, 2026;

- The practice of excluding the negative net valuation differences of securities which included in the "Fair Value Through Other Comprehensive Income Securities" portfolio that were acquired before January 1, 2024, in the calculation of equity used in capital adequacy ratios in accordance with the Board Decision No. 10747, dated December 12, 2023, shall be terminated, and the existing provisions of the Regulation on Banks' Equity, published in the Official Gazette dated September 5, 2013 and numbered 28756, shall be applied to the securities held by banks in the "Fair Value Through Other Comprehensive Income Securities" portfolios.

- The practice of using the CBRT foreign exchange buying rate as of June 28, 2024, when calculating the values of monetary assets and non-monetary assets, except items measured at historical cost in foreign currency, pursuant to Turkish Accounting Standards and related specific provisions, in the calculation of credit risk exposure amount in accordance with the Board Decision No. 11038, dated December 19, 2024 and Regulation on the Measurement and Assessment of Capital Adequacy of Banks published in the Official Gazette dated October 23, 2015, and numbered 29511, shall be terminated and the existing provisions of the Regulation on Measurement and Assessment of Capital Adequacy of Banks shall be applied.

Accordingly, both exceptions have not been applied as of January 1, 2026.

I. Explanations on Equity (Continued)

1. Information on debt instruments to be included in the equity calculation

None (December 31, 2025 – None).

2. Explanations on the reconciliation of shareholders' equity items and balance sheet amounts

	Current Period	Prior Period
Balance sheet total equity	**20,572,406**	**18,910,368**
Deductions made within the scope of the regulation	975,004	1,022,906
TFRS 9 transition period application (Temporary Article 5)	-	-
Income/expenses from valuation and/or reclassification of financial assets measured at FVOCI	-	-
Core capital	**19,597,402**	**17,887,462**
Additional Tier I capital	-	-
Capital	**19,597,402**	**17,887,462**
Up to 1.25% of total risk weighted amount of general reserves for receivables where the standard approach used	1,517,370	1,411,465
Debt instruments deemed suitable by the BRSA	-	-
Other items to be defined by the BRSA (*)	-	247,745
Total equity	**21,114,772**	**19,546,672**

(*) Pursuant to the BRSA regulation dated December 12, 2023, and numbered 10747, the equity amount used in the calculation of the prior period capital adequacy ratio excludes the negative valuation differences related to "Securities at Fair Value Through Other Comprehensive Income" portfolio acquired before January 1, 2024.

II. Explanations on Risk Management

The disclosures and related explanations prepared in accordance with the "Communiqué on Public Disclosures of Risk Management by Banks" published in the Official Gazette No. 29511 on October 23, 2015, and effective as of March 31, 2016, are provided in this section. In accordance with the relevant communiqué, the following tables, which are required to be disclosed, are not presented as of September 30, 2025, since the standard approach is used in the Bank's capital adequacy calculation:

- Credit risk amounts based on portfolio and PD ranges
- The effect of credit derivatives used as the Credit Risk Adjustment ("CRA") technique on the Risk-Weighted Assets ("RAV")
- IRB (The simple risk weighted approach for specialized loans and equity investments)
- Internal model approach for trading accounts
- Comparison of Risk Measurement and Disclosure ("RmD") estimates with profit and loss

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)

III. Explanations on Foreign Currency Exchange Rate Risk

1. The exchange rate risk to which the Bank is exposed, the estimation of the effects of this situation, the limits determined by the Bank's Board of Directors for the positions monitored on a daily basis

The difference between the Bank's foreign currency and foreign currency indexed assets and foreign currency liabilities is defined as the "Net Foreign Currency Position" and forms the basis for exchange rate risk. Another important dimension of exchange rate risk is the risk arising from the change in the values of different types of foreign currencies within the Net Foreign Currency Position ("cross currency risk").

The Board of Directors has determined limits to ensure compliance with the "Net Foreign Currency Position" and compliance with these is monitored daily and reviewed at least once a year according to changes in economic conditions and the Bank's strategy and updated when deemed necessary.

In measuring the exchange rate risk to which the Bank is exposed, the "standard method" used in legal reporting and the internal method, VaR, are used. Measurements made within the scope of the standard method are carried out monthly, while measurements made within the scope of VaR calculations are carried out daily.

2. The extent to which foreign currency debt instruments and net foreign currency investments are hedged with derivative instruments for hedging purposes, if material

None.

3. The Bank's financial statement date and the current foreign exchange buying rates announced to the public for the last five business days from this date

US Dollar Exchange Rate on the balance sheet date	TRY 44.3961
Euro Exchange Rate on the balance sheet date	TRY 50.9294

Date	US Dollar	Euro
March 31, 2026	44.3961	50.9294
March 30, 2026	44.3841	51.0236
March 27, 2026	44.2887	51.0150
March 26, 2026	44.2828	51.1617
March 25, 2026	44.2737	51.3620

4. The simple arithmetic average value of the Bank's current foreign exchange buying rate for the last thirty days, starting from the financial statement date

The simple arithmetic average of the March 2026 US Dollar exchange rate is TRY 44.1021 and the Euro exchange rate is TRY 50.9850.

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)

IV. Explanations on Interest Rate Risk

Interest rate risk that would arise from the changes in interest rates depending on the Bank's position is managed by the Asset/Liability Committee of the Bank.

The sensitivity of assets and liabilities to interest is assessed in the Asset/Liability Committee meetings held monthly with the participation of senior management, taking into account market developments. The Bank's management monitors market interest rates daily and determines the Bank's interest rates as necessary.

V. Explanations on Position Risk of Equity Securities

None (December 31, 2025 – None).

VI. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio

The Bank's Liquidity Risk is monitored and managed in accordance with the Liquidity Risk Management Policy. According to this policy, the Board of Directors is responsible for reviewing and approving the Bank's risk profile and appetite at certain intervals. The Senior Management takes the necessary measures to monitor this risk; and controls the liquidity risk in accordance with accepted strategies and policies.

The Treasury Department is responsible for executing the liquidity strategy determined and approved by the Board of Directors, The Risk Management Department is responsible for defining, measuring, monitoring, and controlling liquidity risk, as well as developing policies, internal and external methods, and procedures that are compatible with the content and structure of the activities applicable in the Bank to monitor the relevant limits. In order to ensure that the Bank's liquidity risk profile remains within the approved limits, the Bank's senior management is regularly informed about the current liquidity risk exposure. The Asset Liability Committee ("ALCO") meetings, which provide the necessary supervision for liquidity risk, are held monthly. Apart from these meetings, the Risk Committee reviews the Bank's liquidity risk within the scope of monthly reports and provides information to the Board of Directors. The Bank evaluates its total liquidity position on a daily basis. Internal and legal reports on the liquidity status are reviewed in monthly ALCO meetings attended by the senior management. Within this scope, decisions are made regarding the management of short-term and long-term liquidity. Internal limit and warning levels approved by the Board of Directors are regularly monitored and reported to the relevant
parties.

It is essential that the Bank continuously monitors its liquidity position and funding strategy. The primary priority is for the liquidity risk to which the Bank is exposed to be in line with the risk capacity determined within the limits stipulated by the legislation and the risk appetite that emerges depending on the Bank's basic strategies. It is crucial that the Bank maintains sufficient free liquid assets that can be sold or reported in case of major decreases in liquidity resources.

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)

VI. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio (Continued)

The Bank's funding management is carried out in accordance with legal limits and internal warning levels within the framework of ALCO decisions. The liquidity position is evaluated by taking into account maturity and customer-based concentration levels, and a funding strategy is developed. While developing this strategy, the aim is to provide funding from long-term and stable sources as much as possible. Deposits, which constitute the Bank's primary funding source, are obtained from a large number of customers as a natural result of the stable core deposit base.

The vast majority of the Bank's total liabilities consist of Turkish Lira, US Dollar, Euro, and gold currencies. Gap reports, prepared in foreign currency and Turkish Lira, are presented at ALCO meetings. In case of maturity mismatches on the basis of currencies, mismatches are managed with FX swap and FX forward transactions.

In order to reduce liquidity risk, the Bank diversifies its funding sources into customer deposits and funds obtained from abroad. Precautions are taken against liquidity crises by investing in assets with high cash generation capacity. The Bank takes care to reduce customer deposit concentration and regularly monitors the concentration level. The liquidity life cycle approach has been determined as the liquidity risk stress test methodology.

The Bank’s Emergency Funding Plan (“EMP”) regulates the funding activities to be utilized during periods of financial market crises or liquidity crises specific to the Bank. The EMP defines the triggers and early warning indicators that help assess and manage a liquidity crisis and determines the priority funding structure. The EMP also outlines the actions to be taken by the Bank in response to cash and collateral needs. In addition, the EMP defines the roles and responsibilities related to managing the risk and implementing the actions included in the contingency funding plan during a liquidity crisis.

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)

VI. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio (Continued)

In accordance with the "Regulation on the Calculation of Banks' Liquidity Coverage Ratio" published in the Official Gazette dated March 21, 2014 and numbered 28948, the lowest, highest and average calculated Liquidity Coverage Ratios for the first three months of 2026, are shown in the table below.

	Highest	Date	Lowest	Date
LC+FC	357.23	30/01/2026	229.80	27/03/2026
FC	1,986.06	13/03/2026	399.17	27/03/2026

The Liquidity Coverage Ratio ("LCR") is regulated by the BRSA to ensure that banks maintain a sufficient high quality liquid assets ("HQLA") stock to cover probable cash outflows in the short term.

The Bank's high quality liquid assets consist entirely of Level 1 high quality liquid assets, a significant portion of which are composed of balances held with the Central Bank of the Republic of Türkiye and uncollateralized securities issued by the Republic of Türkiye Treasury.

As of March 2026 period, the Bank's funding sources consist primarily of deposits, which account for 79% of the Bank's total liabilities.

The Bank actively uses derivative instruments to manage its liquidity risk. The impact of cash flows of derivative transactions on total liquidity coverage ratio is limited. However, as the maturities of foreign exchange swap transactions used to manage short term foreign currency liquidity ratio fall within one month period and their volumes change, foreign currency liquidity ratio fluctuates. In addition, potential cash outflows that may arise from margin call obligations of derivative transactions are taken into account in accordance with the relevant regulations.

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)

VI. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio (Continued)

Collateralized funding at the Bank consists of repo transactions. In these collateralized funding operations, all securities used as collateral are instruments issued by the Republic of Türkiye Treasury, and the transactions are conducted both with the Central Bank of the Republic of Türkiye and in the interbank money market.

(1) Active balance sheet accounts accounts such as tangible fixed assets, inventories, and prepaid expenses, which are required for the continuation of banking operations and are not readily convertible into cash in the short term, are recorded under the "Undistributed "column. Undistributed other liabilities include equity amounting to TRY 20,952,348 (December 31, 2025 – TRY 18,919,964), current tax liabilities amounting to TRY 1,981,023 (December 31, 2025 – None), and undistributed provisions amounting of TRY 588,824 (December 31, 2025 – TRY 621,743). As of March 31, 2026, there are no deferred tax liabilities within undistributed liabilities (December 31, 2025 – TRY 184,281).

(2) Cash (Cash in vault, effectives, cash in transit, purchased cheques) and balances with CBRT include an expected loss provision balance amounting of TRY 11,542 (December 31, 2025 – TRY 9,656).

(3) Banks include an expected credit loss provision balance of TRY 294 (December 31, 2025 –TRY 780).

(4) Financial Assets at Fair Value Through Profit or Loss include Derivative Financial Assets Measured at Fair Value Through Profit or Loss amounting to TRY 708,570 (December 31, 2025 – TRY 1,134,931).

(5) Loans and Receivables include an expected credit loss provision balance of TRY 11,661,626 (December 31, 2025 – TRY 10,445,382).

(6) Financial Assets Measured at Amortized Cost include an expected credit loss provision balance of TRY 2,092 (December 31, 2025 – TRY 1,162).

(7) Other Assets include an expected credit loss provision balance of TRY 1,163 (December 31, 2025 – TRY 393).

(8) Other Liabilities include an expected credit loss provision balance of TRY 2,512 (December 31, 2025 – TRY 1,883).

(9) Other Liabilities include TRY 3,758,629 (December 31, 2025 – TRY 434,880) of derivative financial liabilities.

(10) Financial Derivative Assets include Forward Asset Purchase Commitments amounting to TRY 324,136 (December 31, 2025 – TRY 831,893).

(11) Financial Derivative Liabilities include Forward Asset Sale Commitments amounting to TRY 324,666 (December 31, 2025 – TRY 834,936).

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)

VI. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio (Continued)

The Net Stable Funding Ratio

The Net Stable Funding Ratio ("NSFR"), a complementary liquidity metric to the LCR, assesses banks' resilience against short-term liquidity shocks by taking maturity mismatches into account. The BRSA has established principles and procedures for the banks to ensure stable funding to mitigate funding risks that could deteriorate liquidity levels on both consolidated and unconsolidated bases in the long term. According to the "Regulation on the Calculation of Net Stable Funding Ratio of Banks" published in the Official Gazette on May 26, 2023, and numbered 32202, the three-month simple arithmetic average of the consolidated and unconsolidated net stable funding ratio calculated monthly as of the equity calculation periods cannot be less than 100% as of March, June, September and December.

NSFR is calculated by dividing Available Stable Funding ("ASF") by Required Stable Funding ("RSF"). ASF represents the portion of a bank's liabilities and equity expected to be stable, while RSF refers to the portion of on-balance sheet assets and off-balance sheet exposures expected to require funding. The ASF balance is determined by applying ASF factors, as specified by the BRSA, to the carrying amounts of banks' liabilities and equity items in accordance with TFRS. The RSF requirement is calculated by applying RSF factors to the bank's assets, based on their maturities and liquidity characteristics. The main component of the Bank's available stable funding consists of capital and customer deposits.

The simple arithmetic average of the Net Stable Funding Ratio ("NSFR") for the first three months, including the reporting period, stands at 210.01%.

INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK (Continued)

VII. Explanations on Leverage Ratio

Information on the issues that cause the difference between the current period and previous period leverage ratio:

The Bank's leverage ratio, calculated in accordance with the "Regulation on the Measurement and Assessment of Banks' Leverage Levels," is 4.17% (December 31, 2025 – 4.21%). The leverage ratio decreased from 4.21% to 4.17%, mainly due to the increase in the total risk exposure with the increase in on-balance sheet assets exceeding the increase in Tier 1 capital. The ratio remains at a strong level above the legal limits.

The table regarding the leverage ratio calculated in accordance with the "Regulation on Measurement and Evaluation of Leverage Level of Banks" published in the Official Gazette dated November 5, 2013, and numbered 28812 is given below:

	Carrying Value	
	Current Period (*)	Prior Period (*)
On-Balance Sheet Assets		
On-balance sheet assets (excluding derivative financial instruments and credit derivatives, including collateral)	269,272,510	239,682,135
(Assets deducted from the main capital)	1,089,709	944,405
Total risk amount for on-balance sheet assets	268,182,801	238,737,730
Derivative financial instruments and credit derivatives		
Replacement cost of derivative financial instruments and credit derivatives	1,273,577	234,303
Potential credit risk amount of derivative financial instruments and credit derivatives	-	568,928
Total risk amount of derivative financial instruments and credit derivatives	1,273,577	803,231
Securities or commodity collateralized financing transactions		
Risk amount of financing transactions with security or commodity collateral	316,322	128,408
Risk amount arising from brokered transactions	-	-
Total risk amount related to financing transactions with security or commodity collateral	316,322	128,408
Off-balance sheet transactions		
Gross notional amount of off-balance sheet transactions	187,040,455	164,966,797
(Adjustment amount resulting from multiplication with credit conversion rates)	-	-
Total risk amount related to off-balance sheet transactions	187,040,455	164,966,797
Capital and total risk		
Core capital	19,054,940	17,041,260
Total risk amount	456,813,155	404,636,166
Leverage ratio		
Leverage ratio	4.17%	4.21%

(*) The amounts in the table show the three-month averages for the relevant period.

k) Liquidation policies for uncollectible loans and other receivables

In order to ensure the collection and liquidation of the Bank's receivables that have become non-performing due to the loss of creditworthiness and have been placed under legal follow-up, the most appropriate course of action is determined by considering factors such as the nature of the loan, the borrower's goodwill, and the urgency of the collection process. While the preferred method is to liquidate the risk through administrative initiatives and negotiations with the debtors, direct legal proceedings may also be initiated based on the evaluations made as a method of collection. Nevertheless, the initiation of legal follow-up procedures does not imply that administrative negotiations have been terminated. On the condition of a mutual agreement, a settlement may be made with the debtor at all stage of the negotiations for the collection of the Bank's receivable.

l) Explanations on write-off policy

The Bank's general policy regarding the write-off of non-performing loans is explained in Section Three – Note VII.

7. Information on Financial Assets Measured at Amortized Cost

INTERIM ACTIVITY REPORT

I. Interim Activity Report Including the Assessments of the Chairman of the Board of Directors and the Chief Executive Officer Regarding Interim Activities

1. Assessments of the Chairman of the Board of Directors and the Chief Executive Officer Regarding Interim Activities

Message From the Chairman of the Board

Dear Stakeholders,

Volatility in global markets and prevailing macroeconomic constraints have made prudent progress and proactive risk management a strategic imperative for the banking sector. At the same time, Türkiye's determined commitment to a sustainable growth-oriented economic rebalancing process presents a promising outlook for the future of our industry. As Enpara Bank, we remain firmly committed to our vision of creating lasting and reliable value for our stakeholders through our strong financial foundations and strategic foresight in this dynamic environment.

As of 2025 year-end, our achievement of ranking 8th among private deposit banks in terms of unconsolidated assets stands as a tangible reflection of what we can accomplish by combining our digital capabilities with a customer-centric business model. Our objective is not only to further strengthen our position among Türkiye's most distinguished private banks through robust corporate governance principles and a long-term strategic perspective, but also to become one of the top three digital banks in Europe. With our agile structure, capable of adapting rapidly to changing macroeconomic conditions, we will continue to execute our strategy of sustainable and profitable growth.

Maximizing customer satisfaction through our innovative products and services, creating value for our stakeholders, and contributing to the national economy constitute the core purpose of our existence. By combining our pioneering strength in digital banking with our efficiency-oriented business culture, we continue to uphold our promise of being a steadfast financial solutions partner, even during periods of heightened uncertainty.

Our confidence in the future and our motivation to succeed are stronger than ever. With the continued support of our valued stakeholders, I sincerely believe that together we will carry Enpara Bank A.Ş. toward a much stronger, more innovative, and more reputable future.

I would like to extend my gratitude for your valuable contributions to date and express my sincere hope that our achievements will continue to grow in the periods ahead.

Yours sincerely,

Temel Güzeloğlu
Chairman of the Board of Directors

I. Interim Activity Report Including the Assessments of the Chairman of the Board of Directors and the Chief Executive Officer Regarding Interim Activities (Continued)

1. Assessments of the Chairman of the Board of Directors and the Chief Executive Officer Regarding Interim Activities (Continued)

Message From the General Manager

Dear Stakeholders,

The first quarter of 2026 was marked by ongoing efforts toward global economic rebalancing, while geopolitical risks and tightening financial conditions continued to shape the macroeconomic outlook. As the effects of the tight monetary policies implemented worldwide to combat inflation continued to be felt, the global growth outlook maintained its moderate trajectory. In this environment, where risk appetite in global financial markets remained limited, investors continued to adopt a cautious stance.

Despite this challenging external environment, the Turkish economy continued its transition toward a more balanced growth path, supported by the determined implementation of monetary and fiscal policies. The normalization in domestic demand and measures aimed at strengthening financial stability contributed to the continuation of the macroeconomic rebalancing process.

During this period of heightened regional and global uncertainties, we remained committed to supporting the real economy without compromising our prudent and sustainable growth approach. Our resilient balance sheet structure, strengthened against external shocks, together with our proactive risk management practices, once again demonstrated our operational agility and solid foundations.

As of March 31, 2026, our Bank's total assets reached TRY 284 billion 348 million, net loans amounted to TRY 152 billion 151 million, and customer deposits totaled TRY 223 billion 763 million, while our net profit for the period stood at TRY 1 billion 921 million.

In the upcoming period, we will continue to closely monitor macroeconomic and geopolitical developments and create value for our stakeholders through our strong capital structure and prudent risk management approach. In line with our sustainable growth objectives, we remain firmly committed to contributing to the Turkish economy.

As Türkiye's leading digital bank, we took pride in closing 2025 as the country's 8th largest privately-owned deposit bank. We are equally pleased to have completed the first quarter of 2026 with strong financial performance. This period was also an intensive phase during which we focused on the development of new products. In the near future, we aim to introduce new insurance and investment products for our retail customers, as well as a new installment loan product for our SME customers. We will continue our new product development efforts without interruption in the periods ahead. With these new products, our primary objective is to further strengthen the Bank's already strong growth momentum and high level of customer satisfaction.

At the same time, we are closely monitoring developments in the field of artificial intelligence and foresee that AI applications will trigger profound structural and cultural transformations across many industries worldwide, including the banking sector. We do not position artificial intelligence solely as a component of operational efficiency or growth; rather, we view it as a platform that will positively transform our customers' banking experience and enable us to develop more personalized solutions. We are shaping all our investments and preparations within this framework and aim to become a bank that creates meaningful differentiation and delivers tangible customer benefits in this field, in full compliance with applicable regulations.

I would like to express my sincere gratitude to all our stakeholders for their continued support during this challenging period, and to all our employees whose dedication and hard work have been the driving force behind our achievements.

Sincerely,

Cumhur Türkmen
General Manager
